

**Welcome  
to the  
Brainstorming  
Session!**

**Thanks to Bill McKinley for  
setting up the floral displays in  
the room!**

**Thanks to Altman Plants for the  
succulent bowls for each  
participant!**

# Why are we here?

- This is an extension of the Ellison Chair advisory committee annual brainstorming.
- Recent Ellison Chair efforts summarized health and wellness aspects of plants & greenspaces.
- Everyone here is either already working in the area of health and wellness involving plants & greenspaces in some way or there is an opportunity to do so.
- Some collaborations exist, but many of us are not aware other programs even existed.
- This session is making a first step in enhancing existing collaborations by adding others to the team and/or establishing new working relationships.

# Who is here today?

- **Representatives from internal TAMU and agency departments, centers, institutes, facilities**
- **Ellison Chair Advisory Committee**
- **Representatives from selected external entities**

# What is our gameplan?

- **Introductions**

- Internal – entity, your role, mission/major programmatic efforts
- External – affiliation, role, what your business/agency does

- **Brainwriting ideation exercise**
